

THE FIRST CELL SIGNAL BOOSTER BUILT FOR SERIOUS OFF-ROAD WORK AND PLAY.

- Works with all side-by-sides (SXS) and UTVs
- Provides up to 32X stronger cell signal and reaches up to 3X farther from cell towers, reducing dropped calls by up to 90%
- 5G compatible and works with all US carriers, including Verizon, AT&T, T-Mobile, and more
- Boosts signal for multiple users and devices at the same time, so everyone in your vehicle stays connected

WHY SXS OWNERS CHOOSE WEBOOST

BUILT FOR EVERY SIDE-BY-SIDE AND UTV

From the ranch to the dunes, the job site to the trail. Compatible with sport, utility, recreational, and crossover machines from Polaris, Can-Am, Kawasaki, Honda, Yamaha, and more.

REACH FARTHER. STAY SAFER

Maximum FCC-allowed power helps your phone connect to the farthest towers so you can call for help, reach emergency services, and stay connected when it matters most.

BACKED BY OUR GUARANTEE

Backed by a 2-year manufacturer's warranty and a 30-day money-back guarantee.

NO SUBSCRIPTIONS, NO MAINTENANCE

One-time purchase. No monthly fees, no ongoing subscriptions.

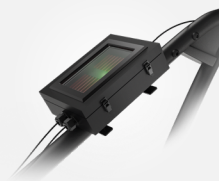

DESIGNED AND BUILT IN THE USA

Every weBoost product is designed, built, tested, and shipped from St. George, Utah with US-based customer support.

WEBOOST SXS

4709061

KEY FEATURES

WEATHERPROOF BOOSTER ENCLOSURE

Sealed enclosure protects booster from dust, water, and harsh conditions.

ROLL CAGE CLAMP AND QUICK RELEASE

Clamps securely to 1.75"-2" roll cage bars. Quick-release detaches the antenna when the ride is done.

MULTIPLE ANTENNA MOUNTING OPTIONS

Use the included roll cage clamp, or mount to existing whip light mounts and standard 3/8-24 threaded antenna bases.

FLEXIBLE ENCLOSURE PLACEMENT

Mount on the roll cage, under the seat, or in the cargo bed. Multiple built-in mounting points and included hardware let you secure it however works best for your machine.
