5G COMPATIBLE

WEBOOST PRODUCTS SUPPORT THE LATEST IN 5G TECHNOLOGY.

EXPAND YOUR REACH ON FLEET CONNECTIVITY.

Paired with our best-selling OTR Truck Edition antenna, Drive Reach OTR Fleet delivers optimal cell signal connectivity; wherever your fleet goes.

The weBoost Drive Reach OTR Fleet takes our most powerful multi-user in-vehicle cell signal booster and optimizes it for use in delivery vans, utility trucks, and all fleet Vehicle Classes (1-8).

Backed by a game-changing 29.5 dBm in uplink-output power, weBoost's Drive Reach OTR Fleet provides the strongest cell signal possible to keep drivers connected to fleet managers from any city, major interstate, or rural route; nationwide. It also maximizes the performance of cellular-based telematics systems. The versatile, modular design of its 17" OTR Truck Edition antenna (up to 45" in height with mast extensions) gives Drive Reach OTR Fleet the unmatched ability to stop dropped calls, boost data/internet speeds, and enhance streaming quality in any environment.

Drive Reach OTR Fleet works with all cell phones, tablets, telematics, and other cellular-based devices on all U.S. carrier networks; including Verizon, AT&T, T-Mobile, and more.

DRIVE REACH OTR FLEET

471254

Key Features

As our most powerful booster, the Drive Reach OTR Fleet easily keeps fleet drivers and dispatchers connected when it matters most.

The Drive Reach booster's unique fin design provides added surface area; allowing it to displace excess heat and sustain peak performance.

Ideally suited for city and rural locations, the Drive Reach OTR Fleet reaches towers at distances up to 74% farther than the Drive X OTR Fleet.

The easily configured 17" OTR Truck Editions antenna (with 3-way mount, mast extensions, and extra hardware) adapts to any fleet vehicle imaginable.
