

zBoost® SOHO DataBlast YX550-VLTE-AWS For Verizon LTE and AWS

Benefits include:

- Increases 4G LTE data speeds on the Verizon network and AWS data speeds on T-Mobile
- Improves upload and download speeds by up to 20X
- Increases indoor signal coverage –to 2500 sq feet
- Easy to set up – comes complete with everything needed
- No cradle or connections to your mobile device
- Extends mobile device battery life (uses less power when signal is stronger)
- Protects the carrier network using patented technology

Technical Specification for YX550-VLTE-AWS

	Specifications for zBoost VLTE Band	Specifications for zBoost AWS Band
Frequency	Uplink: 704 to 716MHz Downlink: 734 to 746MHz	Uplink: 1710 to 1755MHz Downlink: 2110 to 2155MHz
Band Supported	17	4
Network(s)	LTE (Verizon)	AWS (T-Mobile)
Output Power	+20dBm in UL and +13dBm in DL	+20dBm in UL and +10dBm in DL

General Product Specs

System Gain	60dB
Power Consumption – Power Supply Current	3W standby; 7W max signal - 2.0A Max
Wall Supply Voltage	100-240VAC 50-60 Hz ; 5.0VDC
System Certifications	FCC Parts 15 & 22, Industry Canada
Base Unit Size and Weight	5" x 7" x 1.25" – 9 oz.
Operating Conditions	Indoor Use Only (40 ^U - 105 ^U F)
Coverage (open areas)	Up to 2500 sq ft

By **Wi-Ex**
